**ANNOUNCEMENT
ABOUT APPLICATIONS FOR ACCOMMODATION AT THE POLISH POLAR
STATION HORNSUND AND FOR ACCESS TO THE EXPEDITION VESSEL
TO SVALBARD IN 2022**

We kindly inform that applications for accommodation at the Polish Polar Station Hornsund and for access to the expedition vessel in order to transport people and cargo to Svalbard in 2022 should be submitted online not later than by February 25, 2022. Appropriate online forms are available on <http://hornsund.igf.edu.pl/news/>.

Please bear in mind that submitting an application is not tantamount to securing a place at the Station and/or the vessel. Access to the Station or to the expedition vessel will be officially confirmed by appropriate agreements signed with IG PAS. Registration of the project in the RiS database will be one of the conditions for signing an agreement. We would also like to inform that access to the Station and the expedition vessel will only be granted to persons carrying valid certificates confirming that they have received full vaccination against COVID-19.

The Institute of Geophysics PAS and the Polish Polar Station Hornsund do not provide tourist services. Therefore all applications for transport or accommodation at the Station for purposes of tourism shall be rejected.
